

Laparoscopic Fellowships in the United Kingdom

This list has been compiled as a resource for surgical trainees planning on spending time on a laparoscopic fellowship during their training or post-CCT (certificate of completion of training). It has been compiled through industry contacts and by emailing the members of the Association of Laparoscopic Surgeons of Great Britain and Ireland (ALSGBI). Appearance on this list does not imply endorsement by the ALSGBI.

If you are interested in applying for any of these fellowships or would like further information please refer to the contact details listed (rather than contact the ALSGBI).

Where 'national press' is documented this would most commonly be in BMJ Careers (<http://careers.bmj.com/careers/hospital-medical-healthcare-doctors-jobs.html>) and on the NHS Jobs website (<http://www.jobs.nhs.uk/>)

We will endeavour to keep the information on this table up to date, but the ALSGBI cannot be held responsible for any inaccurate information. If you run a fellowship that you would like to be included here or would like to update the information on the list, please contact Jenny Treglohan (Jenny@asgbi.org.uk) or the ALSGBI trainee representative.
