

St Mark's Hospital Academic Congresses Information 2012

[St Mark's Workshop on Anal Fistula](#)

Date: 2 March 2012

Course Convenor: Professor Robin Phillips - Clinical Director of St Mark's Hospital

A one day workshop on the Management of Complex Anal Fistula.

All you ever wanted to know about anal fistula! Practical management is covered by an extremely experienced faculty with plenty of time available for discussion.

Please click [here](#) to view the provisional course programme and further information.

[St Mark's Advanced Colorectal Workshop](#)

Date: 12 - 14 March 2012

Course Organiser: Mr. JT Jenkins, Consultant Surgeon, St. Mark's Hospital

The Advanced Colorectal Workshop aims to promote the surgical craft of Coloproctology through demonstration and discussion of techniques

The Workshop emphasises advanced technical aspects in Coloproctology to encourage their safe and uniform adoption

The Workshop has been revised to accommodate the ACPGBI / ISCP Curriculum and is targeted at Trained Surgeons and Senior Trainees

Candidates presenting for the FRCS "Exit" Examination or EBSQ Examination are likely to benefit from the course content

[Inflammatory Bowel Disease: Common Issues Discussed in Depth Date](#)

Date: 23 March 2012

Course Organiser: Professor Robin Phillips, Dr Ailsa Hart

A multi disciplinary team of pathologists, radiologists, nurses, gastroenterologists (paediatric and adult), nutritional experts and surgeons.

Suitable for medical and surgical consultants, trainees and specialist nurses.

Please click [here](#) for further information.

[How to Develop Your Laparoscopic Colorectal Surgery](#)

Course Convenor: Mr Robin Kennedy, Mr Ian Jenkins

Date: 17 April 2012

Venue: St Mark's Hospital, Level 6, Clore Lecture Theatres 3 and 4.

Aims of the Course:

- ❖ Improving clinical results
- ❖ Shortening the learning curve
- ❖ Improving organisation in theatres

Target Audience: Surgeons and theatre staff involved in laparoscopic colorectal surgery.

There will be opportunities during the day to address specific problems encountered during this type of surgery and course participants will be able to select DVD's which will suit their further learning.

Please click [here](#) for further information.

[St Mark's Postgraduate Teaching Term](#)

Date: 8th May – 1st June 2012

8th October – 2nd November 2012

For many years St Mark's Academic Institute has run highly prestigious teaching terms for intestinal Surgeons. This four week programme is suitable for surgeons with an interest in intestinal and colorectal disease. The programme includes lectures, open seminars, attending theatres and outpatient departments and the opportunity to spend time in the various hospital departments. There is also free time for personal study.

Now, due to popular demand a new parallel programme has been developed for gastroenterologists with a specific interest in luminal disease. This four week programme includes lectures, open seminars, ward rounds and the opportunity to observe complex endoscopic procedures. Applicants will be able to attend routine hospital meetings including Grand Rounds, Journal Club and Radiological and Pathological Reviews.

Please click [here](#) to view the provisional course programme and further information.

[Complex Management of Colorectal Cancer Study Day](#)

Date: 25th May 2012

Course Convenor: Professor John Northover

Professor Northover is organising a surgical course focusing on the management of complex colorectal cancer.

A dynamic and innovating programme that will include talks by the various experts who are involved in managing complex patients.

St Mark's Enhanced Recovery Symposium 2012

Date: 1 June 2012

26th October 2012

Course Convenor: Mr Robin Kennedy

A one day multidisciplinary symposium held at St Mark's Hospital, London.

HOSPITAL STAYS OF 3 DAYS ARE ACHIEVABLE WITH AN ENHANCED RECOVERY PROGRAMME FOLLOWING COLORECTAL SURGERY.

This symposium aims to allow surgeons and other health professionals to develop and implement Enhanced Recovery Pathways within their own hospital.

Target Audience: Colorectal Surgeons, Anaesthetists, Specialist Colorectal Nurses, Senior Nurses, Pain Team Specialists, Physiotherapists, Dieticians and Managers.

We recommend bringing a hospital team to the symposium.

Please click [here](#) for further information.

Laparoscopy in Emergency Surgery Study Day

Date: 12th October 2012

Course Convenor: Mr Janindra Warusavitarne, Mr Alberto Isla

Venue: St Mark's Hospital

This course aims to review the current indications for laparoscopic surgery in the management of the most common abdominal emergencies. The course is helpful for all surgeons involved in acute care and brings together several experts in laparoscopy who use it regularly in the emergency setting.

St Mark's Hospital & Academic Institute Lecture Course 2012

Frontiers in Intestinal and Colorectal Disease

Tenth Annual International Congress

Course date: 27th November – 30th November 2012

Course venue: St Mark's Hospital, Harrow, London

Topics to include among many others:

- Cutting edge symposia
- Full exhibition and learning centre
- Breakfast sessions

A four day international multi-disciplinary meeting which will include this time a day dedicated to the career of **Professor John Northover** who is retiring in 2012. We do hope that many of those who have had the privilege to work and train with him at St Mark's Hospital will be able to join us.

St Mark's Website E Learning Library:

At St Mark's we are working to improve and widen educational opportunities. Our DVD selection, many of the courses and Grand Rounds are now available to watch online. Grand Rounds form an important part of in house education at St Mark's. Covering a wide

variety of subjects, the presentations are usually given on a weekly basis and we are now able to make them available to view online free of charge.
